

**WOOD CITY**  
TRADING W.L.L

## Building Materials Trade

Supplying durable, Certified Materials for infrastructure, industrial, and commercial projects.

We source and supply high-quality building materials from trusted manufacturers across the region. From structural steel to aggregates and cement, every product adheres to strict durability, safety, and performance standards—ready for demanding construction environments

### Why It Matters

Your project timeline, safety, and budget depend on reliable resources. We deliver materials that meet performance standards—reducing downtime, improving structural integrity, and ensuring compliance from day one.

### KEY BENEFITS

#### Consistent Quality

Products sourced from reputable mills and certified producers.

#### Regional Network

Trusted supply across GCC and global markets

#### Reliable & On-Time Delivery

Stock availability + optimized logistics = your project never stops.

## Essential Materials for Every Project

Whether it's pallets, lumber, or custom-cut wood, we provide solutions you can trust for every project

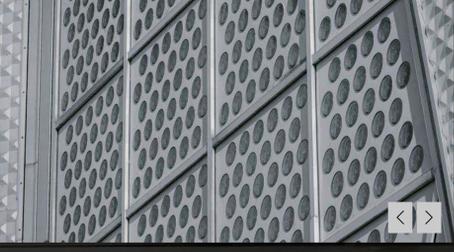

### Projects Supplied

**1** Bulk construction materials sourced and delivered according to project scale and specifications. Ideal for residential developments, commercial builds, and industrial infrastructure

### Timber & Raw Wood

**2** Structural wood and high-grade timber suitable for framing, foundation work, and heavy-duty use. Carefully selected from trusted suppliers to provide strength, durability, and stability.

### Finishing Materials

**3** Interior and exterior finishing materials designed to ensure performance, protection, and aesthetics. Supporting final stages of construction with reliable solutions for long-term results.

### Accessories & Consumables

**4** Practical site essentials that keep operations efficient, from fasteners to technical components. Compact supplies that reduce downtime, support installation, and enable continuous workflow.
